Re: Written Comment in Response to Proposed Rules 25 TAC 421.61 – 421.68

Dear Bruce:

The Texas Chapter of the American College of Cardiology (TCACC) is concerned that the inclusion of cardiology procedures in the above-referenced proposed rules is beyond the scope of the stated language in SB 1731.

Accordingly, TCACC would respectfully request the cardiology codes be removed from the rules before final adoption.

Thank you for your attention to this matter.

Sincerely,

Rick Snyder, MD  
President, Texas Chapter of the ACC
